

OUR GREEN ENGAGEMENT.
RUNNING A HOTEL WITH A
VIEW ON OUR ECOLOGICAL
FOOTPRINT IS NOT EASY.

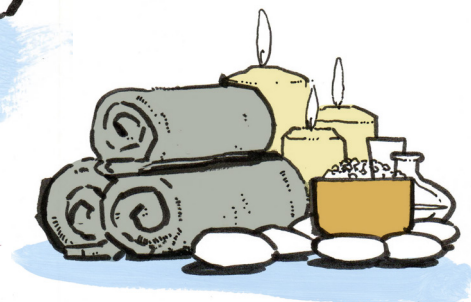

**HOTELS CAN BE AN
OPPORTUNITY FOR WASTE,
BUT OUR COMMITMENT
TO SUSTAINABILITY IS AN
ONGOING PROCESS.**

Our approach to sustainability

We believe in redefined travel. Sustainable travel doesn't mean having to go without; It's about a deeper connection to your surroundings. Immerse yourself in nature, explore local cultures, savor regional flavors, and linger longer. Discover a new kind of travel experience that enriches both you and the world around you. Our goal is to find a harmonious balance between environmental responsibility and business success.

Less is more

We're not big fans of waste around here. We strive for a paperless reception and swapped most of those tiny shampoo bottles for something a little more planet-friendly: refillable dispensers in our rooms and solid toileteries in the apartments.

Our breakfast buffet is a feast for the eyes (and your stomach). We make sure the breakfast buffet is bountiful but not wasteful.

Behind the scenes

We know running a hotel can leave a footprint, but we're committed to keeping ours as small as possible. Our commitment to recycling extends beyond paper and plastic, as our food waste is sent to be converted into bio methane and unused bar soaps are recycled and sent to African villages to help in their hygiene efforts.

Energy efficiency

Energy efficiency is a top priority for us. Our hotel is heated using locally produced renewable wood pellets, connected to the town's central heating system. Even our pool, while not the most eco-friendly feature, is heated with the same sustainable energy source and is heavily insulated.

Feel good finds - Conscious comfort

Our bio-sourced room slippers are not the cheapest but we love them. Please feel free to extend their life by taking them home. Our reusable tongs can be rewashed and used again and again. We will only wash your towels when needed, change your sheets every third day. We offer the option of reduced housekeeping services. Enjoy a longer, undisturbed retreat by choosing to skip housekeeping for a day or two. But don't worry, if you change your mind, we are just a call away!

Savor the local flavors

We're passionate about supporting our community and showcasing the best of the region. That's why we proudly source fresh and seasonal ingredients from local producers, from creamy cheeses to tender meats. Local wines & spirits represent more than 70% of our beverage menus. The beers served come from local breweries. Our coffee is roasted in Lausanne. Even the butter we serve is made from milk produced by local cows and crafted in the Verbier fromagerie.

We believe that a sustainable future is a shared responsibility.

By choosing to stay with us, you are already making a positive impact. Let's work together to protect our beautiful surroundings. Remember to turn off the lights when you leave the room, recycle diligently, and enjoy the pure taste of Verbier's refreshing tap water by refilling your bottle. Small actions can make a big difference!

**WITH YOUR
SUPPORT, EVERY
YEAR WE TRY
AND GET BETTER.**
